Wisconsin News In Brief

A Columbus minister had an appointment to appear at a local hotel and marry a couple from a country town, but at the time appointed they failed to show up. The next morning, however, the couple presented themselves at his home to have the ceremony performed. The young man appeared to be hesitating, however, and at the first opportunity told the clergyman that he was "promised" to another girl and was uneasy as to what she would think about the proceedings. The minister refused to unite the couple and they left, after strong objections were entered by the would-be-bride. The minister learned later that a justice had performed the ceremony.

## ANALYSIS OF SUGAR BEETS

Encouraging Report of the Agricultural Experiment Station Chemist.

Madison, Wis., Feb. 5.—A bulletin just issued by the agricultural experiment station of the University of Wisconsin shows a most encouraging outlook for the beet sugar industry in the state. The bulletin is of 104 pages and is the result of several months work by Prof. Woll of the Agricultural college. The chemists of the station were busy all last fall with analyses of beet sugar samples sent them by farmers to whom seed had been furnished with the understanding that they furnish samples to the station when the crop was harvested.

The report shows that 2,327 samples were analyzed during 1897 and of this number 1,663 came from sixty-eight counties of the state. The average per cent. of sugar beet in these samples were 12.67 with a purity of 71.1. The average of sugar in the beets for the past four years has been 12.7 with a purity of 78.8. The average yield per acre for 1897 was 13.6 tons as shown by the average of 1.105 different farmers' reports.

The report states that in studying the statistics furnished in the pamphlet it must take into consideration that many of the farmers who sent samples had no experience in the proper means of cultivating the beets and were not able to bring about as satisfactory results as were possible. Many of them neglected the deep plowing, close planting, careful preparation of the seed bed and assiduous weeding necessary to produce the best results. In fact only 8 per cent. of those reporting have grown sugar beets before. The reports were especially favorable to the land along the shores of Lake Michigan and a strip of land near Menominee.

## FISH SHUT UP THE MILL

Delavan Men Could Not Get Water to Run The Wheels.

Delavan, Feb. 5.—The Delavan Mill Company was compelled several times to cease operations on account of fish lodging against the screen in front of the water wheel. For some unaccountable reason the fish mostly bluegills, perch and black bass, became dazed, not knowing whether they were going or coming.

Several plausible reasons are given for the actions of these fish. Some say they are leaving deep water on account of not getting sufficient air, while others claim that the pressure of the snow-covered ice is so great as to not leave room for them between the ice and the bottom of the pond near the springs, and still others claim that the water is too cold. However, it is something unheard of before in these parts.

## CUBAN LEAF GROWS ON WISCONSIN SOIL

GOOD SCHEME UNLESS IT IS OVERDONE.

If Its Culture Becomes a Craze, However, The Filler Market Will Be Overstocked and There Will Be No Profit, the Edgerton Reporter Says—Deals in the Market.

"The tobacco growers of Pennsylvania and some of the other eastern cigar leaf states are being urged to turn their attention to the raising of Cuba tobacco for filler purposes," says the Edgerton Reporter. "Those who grew this variety the past season find that it paid them greater revenue than the seedleaf or Havana seed, which is being held up by the newspapers as an incentive to experiment with the imported variety. Cuban seed is also being distributed free to farmers who will agree to plant stated areas. The new venture will probably pan out all right if the craze to plant a filler leaf does not induce too many growers to embark in this venture. Some nice results have also been obtained from growing Cuban leaf in this state, the past season and more will undoubtedly try it another year. But if a considerable number of farmers go into this variety the filler market is in danger of being badly overstocked and prices will be so small as to preclude any profit to the grower. This condition of affairs is just what the growers want to be careful does not occur. It is hardly probable, however, that the filler growing craze will develop much headway in this state the present season, though it might be well to keep tab on it just the same.

The Edgerton Market.

The presence of tobacco buyers in nearly all the growing sections bears some indication that a more general movement of the new leaf is likely to occur. A number of large operators have their representatives in the field and a good deal of buying is now being done nearly everywhere. The majority of sales range under 6c, though an occasional fancy lot is bought at above that figure and the buyers labor under the impression that they are getting selections too, at these prices. Sales reaching us since last report are:

## THEY GAVE A FINE PROGRAM

Last Night's Session of the Musical-Literary Club Very Enjoyable

In spite of the storm there were very few vacant seats in the Caledonian rooms last evening and the discussion of northern music and musicians was greatly enjoyed. Members of the History club, who have been studying Scandinavian history, were guests. Before the musical numbers Mrs. J. F. Pember read a carefully prepared review of Scandinavian music dwelling especially upon Grieg "the tone Titan of the North." They were numerous examples of Grieg's work in the evening's program which was as follows:

1. Characterization of Grieg. Mrs. Pember.
2. Knud Lavard. Gade. Miss Anderson.
3. Sunset. Miss Elizabeth Palmer.
4. Bridal Procession. Grieg. Mrs. James S. Fifield.
5. a. Be Thou Still. Lassen. Mrs. Stephen B. Lewis.
6. Thine Eyes So Blue. Tender. Lassen. Mr. Garbutt.
7. Will o' the Wisp. Jensen. Miss Weisend.
8. a. Cradle Song. Grieg. Mrs. Edwards.
9. Sunshine Song. Grieg. Mrs. Malcolm G. Jeffris.
10. a. Cradle Song. Grieg. Miss Lewis.
11. A Dream. Lassen. Mr. Paris.
12. (a) A Swan. Grieg. Miss Abbott.
13. Romanza. Svendsen. Mr. Bellack.
14. Good Morning. Grieg. Mrs. Hawley.
15. Last Night. Kjerulf. Mrs. Menden. Mrs. Hyzer. Mrs. Wm. S. Jeffris. Mrs. B. B. Lewis.

The analyses will be read by Mrs. Pember.

During the evening arrangements were made for the "Evening of Old Time Songs," the singers to be in costume. The invitation of the Y. M. C. A. to fill one evening on the Y. M. C. A. lecture course was accepted.

## The McCall Bazar Patterns

Are the best made. Best, because they fit perfectly. Best, because easiest to understand. Best, because they have particularly graceful curves. Best, because most economical, as no seams are allowed, which makes a great saving in material. In trimming down a pattern when seams are allowed, the graceful shape is so often spoiled, as many women so well know. When basting up lining it is much easier when allowing one's seams, as the broad seams allowed on other patterns interfere when putting the garment together. Best, because up to date.

All 10c and 15c.

We will send our Pattern Sheet each month, to any out of town address, FREE. McCall's "Queen of Fashion," a bright monthly, one year, post paid, 50c. McCall's "Bazar Dressmaker," containing hundreds of styles, 25c by mail, issued every six months, additions monthly.

## TO TAKE THE EXAMINATION

Local Drug Clerks Will Go to Milwaukee Next Wednesday.

Three Janesville young men have been putting in a hard week studying the ins and outs of the drug business. Next Wednesday, T. A. McGinty, E. sign Hemming and Louis Schmidley will leave for Milwaukee, where at the Hotel Pfister they will take an examination before the state board of pharmacy.

To Denver in Less Than 28 Hours—Only One Night En Route—The Colorado Special.

Beginning Sunday, February 6, a new train will be placed in service between Chicago and Denver via the Chicago, Union Pacific & Northwestern Line, which will make the fastest schedule ever maintained between Chicago and Colorado's Capital City.

This train will be known as the "Colorado Special" and will leave Chicago via the Chicago & Northwestern R'y. at 10 a. m. every day and reach Denver at 1:30 the following afternoon, the westbound time at certain intermediate stations to be approximately as follows: DeKalb, 11:30 a. m.; Clinton, 1:25 p. m.; Cedar Rapids, 3:30 p. m.; Belle Plaine, 4:30 p. m.; Tama, 4:55 p. m.; Marshalltown, 5:25 p. m.; Ames, 6:15 p. m.; Boone, 6:40 p. m.; Carroll, 8:25 p. m.; Mo. Valley, 10:40 p. m.; Council Bluffs, 11:30 p. m.; U. P. Transfer, 11:30 p. m.; Omaha, 11:55 p. m., all the same day. Eastbound, this train will leave Denver daily at 3:30 p. m. and reach Chicago 8:45 the next evening. As connections will be made in the Union depot at Denver to and from the trains of all the Colorado lines, passengers will thus be afforded the very best opportunities for quick transit between Chicago and all points in Colorado and the west.

Train will be vestibuled throughout, lighted with Pintsch gas, and will consist of drawing room, sleeping cars, free reclining chair cars, buffet, smoking and library cars, coaches and dining cars serving all meals en route. A feature in connection with the service of this train, which will be appreciated by tourists, is that it will afford an opportunity for a daylight ride through the progressive and thickly settled portions of Illinois and Iowa, which have been impossible heretofore, as all trains for Denver have left Chicago in the evening.

Daily service to Denver via the Pacific Limited leaving Chicago at 10:30 p. m. will be continued.

## IS AFTER THE MEN WHO WORKED GAME

### MAGAZINE PUBLISHERS UP IN ARMS.

Say Two Alleged Sharpers Took Subscriptions and Pocketed the Money Thereby Causing Much Trouble For the Printers—Close On the Trail of the Two Solicitors.

Magazine swindlers are alleged to be at work in this section of the country, and New York publishing firms had men in the city today who seemed anxious to form the acquaintance of the alleged sharpers. According to these agents, the sharper's game was to take orders for some leading magazine, requesting payment of a small sum down as an evidence of good faith. That was the last that customers ever heard of their money, the magazine or the obliging and polite agent.

A. E. Foster of New York City, representing Munsey's magazine, was in the city today, in the hopes of laying his hands on two good looking and well dressed men who are canvassing for Munsey's, under the names of Joseph Smith and T. A. White. For the past few weeks, Mr. Foster says, these two men have been causing New York firms much trouble and letters by the bushel have been received in the metropolis from residents in southern Wisconsin and northern Illinois.

"For the past two weeks we have not been far behind those two men," said Mr. Foster, "and the last that we heard from them, they were in Freeport. While in that city they left on my arrival, but thinking that they went either to Rockford or Janesville, I followed immediately in the hopes of landing them."

It is evident that they have been working in this section, as many letters have been addressed to the firm from Rock county.

The two much wanted men are always working together. Each is about thirty years of age. They carry sample cases containing magazines, wear the best of clothes and stop at the best of hotels. In case the men are captured the New York firms claim they will do the rest and see that they are given all that the law allows.

## CLAIM AGENT SEES MR. PERRY

Settlement Has Not Been Made Yet. It Is Said.

I. O. Belden, claim agent for the C. & N. W. railroad, has been in the city this week in the hopes of making a final settlement with Harry Perry, the Chicago man who recently had his right arm injured here, but it is said that no agreement was reached. Mr. Perry is improving as well as can be expected although it will be several days before he will be able to leave the Palmer hospital.

## CAR ROBBERS ARE RUN DOWN

Will Be Brought Here From Racine In a Short Time.

W. J. King and W. H. Germain, two well known detectives of the St. Paul road, have been in the city this week getting evidence against the thieves who broke into a freight car between this city and Beloit last month and stole a number of pairs of men's shoes. The men who are now serving out thirty day drunk sentences in the Racine jail will be brought here and lodged in jail within the next few days.

## THEY BUY RAW FURS HERE

To Dealers Looking For the Skins of Rock County Animals

W. E. Ball of New York, and S. Lovenstein of St. Paul, were in the city today buying raw furs. Mr. Lovenstein purchased over 1,000 muskrat, skunk and mink skins of Rock county hunters for shipment to St. Paul.

Mr. Ball reports having paid out about \$8,000 in the last two weeks to hunters in the northwest. He reports but few purchases in this city.

## JOHNSON JAILED FOR BOWING

Chicago Swede Too Axious to Recognize The Ladies.

If John Johnson, a six foot Chicago Swede had not stopped at the corner of Main and Milwaukee streets about 5:30 o'clock last evening and bowed to every lady who happened to pass he would not have spent last night in jail. But John, who was drunk, insisted on making acquaintances so Officer Appleby landed him in jail.

## LUMBER MEN GLAD BECAUSE OF TRADE

### THEIR BUSINESS IS PICKING UP

Pendleton & Gilkey Got Five Times As Many Orders Last Month As Were Received Any Month Since 1892—The Inquiries Come In a Flood These Days.

"During the past month we have had five times the amount of business as well as five times the number of inquiries for lumber than we had in a year one month since 1892," said Alderman H. S. Gilkey of the local wholesale lumber firm of Pendleton & Gilkey. This state of affairs shows that better times are here and a brighter outlook for the future is seen.

"And this is not our experience alone," said the alderman, "for at the recent meeting of the Wisconsin and Michigan lumbermen held in Marquette, Mich., nearly every member at the convention got up at the meeting and told the same state of affairs. They particularly spoke of the large number of inquiries that had been coming in from all sections of Iowa, the Dakotas and Minnesota which sections of the country they had not heard from since 1892."

"Hard times and the scarcity of ready cash has cut in to the western trade and now that the orders are coming in at such a lively rate, from these sections, we know of no other better indications for a lively spring."

The local firms have also received far-away orders from the south for cedar posts which indicate that the farmers are now more able to build good fences than at any time in years past. Orders for telegraph poles have also been received as well as many rush order for railroad ties. Lumbermen say that these are sure signs that prosperity is here.

# THE WORLD'S NEWS OF YESTERDAY.

Washington, Feb. 5.—Senator Lindsay of Kentucky made public answer in the senate Friday to the request made by the democratic majority in Kentucky for his resignation.

The provocation of the resolution calling upon Senator Lindsay to resign was the charge that he had betrayed his trust by voting against free coinage. The senator called attention to the fact that the people of Kentucky at the last election voted against free coinage. He referred to the legislators as "political changelings who altered their opinions while nine remain the same."

The senator showed that in his first term he voted for the repeal of the Sherman law, against all free coinage amendments thereto, against the proposed restoration of the Bland-Allison act and against the bill directing the coinage of the seigniorage. Immediately thereafter, with a full knowledge of these votes, the Kentucky legislature re-elected him to the senate by the unanimous vote of the party, no other name being presented to the caucus.

"I am a senator from Kentucky and not from Kentucky," he exclaimed. Senator Lindsay said he was always ready to stand for local sentiment of his state and to give due consideration to local petitions, but to resign his seat in response to such an insolent demand would rob the senate of all its dignity. The men who passed the resolution were "ignorant of the constitution and of the foundation principles of Jeffersonian democracy."

The speech of Senator Lindsay was listened to by his colleagues, both republicans and democrats, with the closest interest.

## MR. WHITE ENDS HIS SPEECH.

Further Arguments Against the Annexation of Hawaii.

Washington, Feb. 5.—Senator White concluded his three days' speech in opposition to the annexation of Hawaii in the executive session of the senate Friday. He made some additional points against the "availability" of Hawaii for defensive purposes, saying that it is 500 miles from the outside islands of the group to other islands. This fact he said demonstrated that numerous points must be guarded from hostile assaults and that a powerful navy would be required to accomplish this; that these immense expenditures would be without benefit to our defenses on the continent. He declared that if Hawaii was acquired it would be contended that our domains should be extended to other islands and we would finally embark upon the foreign acquisition business, involving an outlay of hundreds of millions of dollars. He denied that there were any valuable agricultural possibilities to justify annexation.

Mr. White then took up the Dole government, insisting that it was irregular and a fraud. He read from Judge Cooley and several other writers in support of his views and declared again that the entire power behind the throne was the sugar combination of Hawaii, whose personal interests had, he said, always been consulted regardless of the effect upon the public.

## Mason Anxious About Cuba.

Washington, Feb. 5.—Senator William E. Mason has set Tuesday next as the day upon which he will precipitate his Cuban resolution in congress. He says the administration has dilly-dallied long enough, and that the legislative body should take some action now that it has been demonstrated the executive will not end the war. The resolution does not specify how the president shall proceed to bring about peace.

## Private Pension Bills.

Washington, Feb. 5.—Friday was private bill day in the house, but by systematic filibustering the private calendar containing the bills reported by the committee on claims was not reached, the whole day being consumed in passing eighteen of the twenty-four private pension bills favorably acted upon by the house at the session last Friday night.

## SHOT WHILE RUNNING.

Evidence Shows Lattimer Strikers Were Wounded in the Back.

Wilkesbarre, Pa., Feb. 5.—At the trial of Sheriff Martin and his deputies, who are jointly charged with the murder of the striking miners at Lattimer Sept. 10, Dr. H. M. Keller, who viewed the remains of the strikers and attended many of the wounded, testified that a number of the strikers were shot in the back, thus bearing out the allegations of the commonwealth that the deputies fired when the men were running away.

The defense in its cross-examination, asked the doctor to classify the wounds as to the position of the men when shot. The classification was as follows: Shot directly in front, five; indirectly in front, nine; directly in the side, fifteen; indirectly in the side, six; directly in the rear, three; indirectly in the rear, eight. Of the thirty-nine patients seven died in the hospital, two are still there and recovering slowly, and thirty have been discharged, all of them cured except one, who is now in a Philadelphia hospital.

## INTEREST MAY BE CUT.

Iowa to Reduce Rate on State Warrants from 6 to 4 Per Cent.

Des Moines, Feb. 5.—The ways and means committee of both houses Friday discussed the bill to reduce the rate of interest on state warrants. Strong opposition developed against the scheme to authorize the state treasurer to sell warrants that cannot be paid when due, on the ground that it would make it appear the state debt is to become a permanent thing. It is most likely the rate of interest will be reduced from 6 to 4 per cent.

Bills have been introduced in both houses looking for an appropriation of \$47,400 for the Iowa exhibit at the Transmississippi exposition in Omaha. The senate printing committee has decided in favor of the bill to put the cut rates on printing into immediate effect. The attorney general has held that where work has been performed, whether all paid for or if bills have been rendered or not, the old prices will govern.

## To Reunite Democratic Party.

Washington, Feb. 5.—It is said there is a new scheme afoot to restore harmony to the ranks of the democratic party. It is a plan to declare for the free coinage of silver, leaving the question of ratio to be determined by legislation and circumstances. The projectors of the movement believe that on a platform like this the party can be reunited. Certain democratic senators and representatives are now preparing to lay the idea before a large number of democrats throughout the country. Already, it is claimed, W. C. Whitney has been consulted and has given his sanction to the scheme. William J. Bryan has not been consulted.

## NO SLEEP FOR THREE MONTHS

One Cause of Sleeplessness That Can be Readily Overcome.

Mr. Wm. Handschu of 46th St., Cotton Alley, Pittsburg, Pa., expresses himself as follows regarding the new remedy for that common and obstinate disease, piles: "I take pleasure in stating that I was so afflicted with piles that for three months I got no regular sleep; I became completely prostrated, the doctors did me no good; my brother told me of the new remedy for piles, the Pyramid Pile Cure; I purchased from my druggist three 50 cent boxes and they completely cured me. I am once more at my work and but for this excellent medicine I should be on my back. I take great pleasure in writing this letter because so many people are sufferers from this trouble who like myself did not know where to look for a permanent, reliable safe cure."

Experience with the Pyramid Pile Cure in the past three years has demonstrated to the medical profession, as well as to thousands of sufferers from piles, that it is the safest and most effective pile cure ever offered to the public, containing no opiates or poisons of any kind, painless and convenient to handle, and being sold by druggists at 50c and \$1 per box, is within the reach of every sufferer.

Very frequently two or three boxes have made a complete cure of chronic cases that had not yielded to other remedy for years.

There is scarcely a disease more aggravating and obstinate to cure than the various forms of piles and it is a common practice to use ointments, salves and similar preparations containing dangerous poisons to remove the trouble. The Pyramid has succeeded all of these ineffectual remedies and no one suffering with any rectal trouble will make any mistake in giving the Pyramid a trial.

If in doubt as to the nature of your trouble send to the Pyramid Drug Co., Marshall, Mich., for a valuable little book on piles, describing all forms of the disease and describing the method of cure.

Any druggist can furnish the Pyramid Pile Cure as it is the best known and most popular remedy for piles and you ask him he can doubtless refer you to many people in your vicinity who have been cured completely by it.

# Pale, Delicate, and Nervous Children Should Take Dr. Greene's Nervura.

It is the Best Remedy in the World to Make Them Well and Strong, As Shown by the Following Wonderful Cures of Epilepsy and St. Vitus' Dance.

That Dr. Greene's Nervura blood and nerve remedy is the best and surest cure in the world for children is proven by the following really astonishing cures of those worst of children's diseases, Epilepsy and St. Vitus' dance.

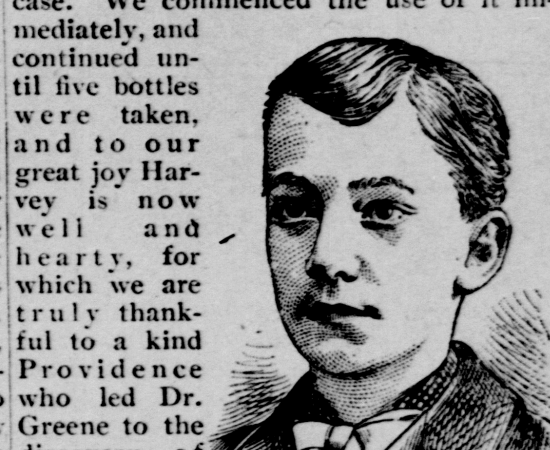

Mr. Geo. E. Leavitt, Whitman, Mass., writes:

"My nephew, A. Roy Reed, was for two years afflicted with epileptic fits. He was treated by the resident physicians and was pronounced incurable. The best specialists in Boston were consulted, and by them, too, his case was said to be hopelessly incurable. The boy suffered agonies; his appetite was gone; he was greatly reduced in flesh, and for two years he did not have one night's restful sleep. His mother, whose one desire was to see her boy restored to health, broke down under the great strain. In the meantime, neither expense nor labor were spared. Every remedy was tried and many physicians were consulted. I then heard of Dr. Greene's Nervura blood and nerve remedy and purchased a bottle. The boy began to take it, with the most remarkable results. Immediately there was a change for the better. Before the contents of the first bottle were taken, he seemed to be imbued with new life. The fits ceased; his appetite was restored, and his recovery was assured. He is now an active, healthy boy, attending school every day. I hope these facts may induce others similarly afflicted to try Dr. Greene's Nervura blood and nerve remedy."

H. A. Cope, of Mt. Salem, Mich., says: "In testimony of the benefit received from the use of Dr. Greene's Nervura blood and nerve remedy, I most heartily append the following facts: Early in the year of 1896 I was much disturbed to find the nervous system of my little son, Harvey A., breaking down, and that ugly disease, commonly called St. Vitus' dance, becoming alarmingly developed; so much so that his whole right side was affected, and it was distressing to see the hand and foot constantly in motion. His tongue was affected so that he could not speak plainly. T. J. Milkin, of St. Clair, our druggist, recommended Dr. Greene's Nervura blood and nerve remedy for the case. We commenced the use of it immediately, and continued until five bottles were taken, and to our great joy Harvey is now well and hearty, for which we are truly thankful to a kind Providence who led Dr. Greene to the discovery of his wonderful remedy and us to the use of it. I recommend all who suffer with like afflictions to try Dr. Greene's Nervura blood and nerve remedy."

Parents of pale, puny, delicate or nervous children should immediately give them Dr. Greene's Nervura blood and nerve remedy. ## INFLUENZA THE PRETEXT.

**Ban on Fruit Likely to Be Followed by Another.**—Now at Imports from America—Washington Cabinet Discusses the Matter.

Berlin, Feb. 5.—Baron von Hammerstein-Loxten, the minister of agriculture, at Friday's session of the Prussian diet declared that American horses developed influenza after importation. He added:

"If the importations increase we shall certainly be forced to adopt a suitable quarantine in order to protect ourselves."

Ambassador White last evening lodged another formal protest with Baron von Bismarck, as in spite of the Prussian diet's resolution American fresh fruit is everywhere excluded.

The United States consul at Düsseldorf telegraphed that only dried fruits had been released and that there were about 11,000 barrels of apples in the bonded warehouses there.

The United States embassy during the week has been flooded with appeals from fruit merchants, dealers and shippers who have been injured by the decree and all of them have thanked Mr. White for the vigorous measures he has adopted.

It appears that Dr. Miquel and Baron von Hammerstein-Loxten issued the decree without the authority of the Prussian cabinet or of the Bundesrath. There is still uncertainty as to the scope of the government's restriction.

## Fear a Tariff War.

Berlin, Feb. 5.—Under the heading "Order-Counter-Order-Disorder," the Tageblatt described the bungling of Prussia with American fruits, and asks "Are we really drifting into a fierce tariff war with the United States because we have petted the agrarian desire?" The Vorwaerts publishes an article, headed "Agrarian Attack on America," detailing the stupidity which the different revenue stations display in interpreting the prohibitory decree. Other liberal newspapers make similar comment.

## Discussed at Cabinet Meeting.

Washington, Feb. 5.—The decree of the German government relative to American fruit was talked over at the cabinet meeting Friday, and figures were produced to show the great importance of the trade put in jeopardy by this sudden and unprecedented action on the part of Germany.

## Proceedings in Illinois Legislature.

Springfield, Ill., Feb. 5.—No business was done in the House Friday. Adjournment was taken to 5:30 Monday afternoon.

There were only three members present in the Senate. Senator Crawford moved to reconsider the vote by which the Senate refused to concur in the House amendments to the primary election bill. This motion was then made a special order for next Thursday. Mr. Crawford explained that he desired this as Senator Mahoney could not be here on Tuesday, and Senator Edwards would be detained at home until Thursday. The Senate adjourned to 5:30 o'clock Monday afternoon.

## Defends Indiana Normal School.

Terre Haute, Ind., Feb. 5.—At the chapel exercises of the state normal school Friday President Parsons took up the third objection being raised to public support of the school—that it was doing very little good. He said that the laws required doctors and lawyers to have special preparation, and there was even stronger reason why the teacher should have special preparation. It was nothing less than a crime against childhood, he said, for a teacher to get all her preparation from the experience of her first year in the schoolroom.

## Would Keep Out Americans.

Ottawa, Ont., Feb. 5.—In the house of commons Friday night Sir Charles Tupper, leader of the opposition, made an attack on the governor general, who, he said, had violated every British and every Canadian precedent by his action against the late administration and in supporting the present government. Sir Charles denounced the 10 per cent royalty on gold in the Yukon and advocated the idea of keeping Americans from holding claims in the Yukon.

## Great Britain's Backdown Denied.

London, Feb. 5.—Gerald Balfour, member of parliament for the central division of Leeds and chief secretary to the lord lieutenant of Ireland, speaking at Leeds Friday evening, emphatically denied that there was any foundation whatever for the rumors that the government had yielded to pressure from any power or had receded from the position it had taken upon the Chinese negotiations.

## Another Reduction in Wages.

Burlington, Vt., Feb. 5.—Notices have been posted at the mills of the Burlington Cotton Manufacturing Company in this city and Winooski announcing that after Monday next the wages of the employees will be reduced 10 per cent.

## Verdict in Sutherland Case.

Plymouth, Ind., Feb. 5.—The jury in the Sutherland murder case Friday returned a verdict of guilty of manslaughter and fixed the punishment at twenty years' imprisonment.

## Senate's Brief Session.

Washington Feb. 5.—At the opening of the senate Friday it was decided when the senate adjourned it be until Monday next. No business of importance was transacted.

## First Indiana Crop Bulletin.

Indianapolis, Ind., Feb. 5.—The first Indiana crop bulletin for 1898, just issued, gives the winter wheat acreage at 2,580,000, nearly the same as last year. The average condition of wheat now is placed at 70. Very strong for January.

## VERY FEW BUSINESS FAILURES.

**Smaller Than in Any Previous Year of Which There is Record—Commercial Balances Heavily in Favor of the United States—The Wheat Market.**

New York, Feb. 5.—R. G. Dunn & Co.'s Weekly Review of Trade says:

"Actual payments through clearing houses in January made a remarkable showing, being much larger than in any previous month, 36.3 per cent larger than the same month last year and 7.1 per cent larger than in 1892. The failures in January were smaller than in any previous years of which there is record, and were probably smaller than in any other January since 1881. The statement by branches of business given this week shows a surprising gain in most departments of manufacture and trade. Meanwhile the money market is as confident as ever; gold does not come from Europe in large amount only because bankers find it worth while to lend American money abroad, and the commercial balances are heavily in favor of the United States, as heretofore.

"Perhaps the most striking feature of the week has been the decline in wheat. The report of the agricultural department has had some influence, although its figures are not generally credited as reliable. The wheat market has turned greatly upon the operation of a Chicago speculator, but the fact remains that the price depends largely upon foreign needs and upon the comparative scarcity of American supply. The spot price of cotton remains unchanged, but the fact that receipts continue larger than during the same week of 1895, after the heaviest crop ever known, checks speculative operations for an advance.

"The iron and steel manufacture is steadily gaining in consumption of pig iron, although the production of the material is still in excess of immediate demands, but not enough to cause a decline in prices in Pittsburgh or Chicago. The demand for car building has been very heavy. Tin is quiet and steady.

"Failures for the week were 335 in the United States, against 311 last year, and 39 in Canada, against 63 last year.

## FAMINE IN RUSSIA.

**Terrible Distress in Interior Provinces Caused by Crop Failure.**

St. Petersburg, Feb. 5.—A failure in the harvest has caused terrible distress among the peasantry of the interior provinces, especially in central and southeastern Russia. In some places they are worse off than during the famine of 1891.

The Russian editors have been forbidden to refer to the matter. Private letters from Tamboff, in the province of that name, southeast of Moscow, say the peasants are feeding their half-starved cattle with the thatches of their roofs. Typhus and other diseases are making rapid headway among them.

## Wants a New Normal School.

Lansing, Mich., Feb. 5.—In his address before the Upper Peninsula Teachers' association at Marquette, Superintendent Hammond strongly advocated the location of a state normal school above the straits. While the city schools of the upper peninsula compare favorably with those below, he says there is a marked difference in the rural schools, and it is because country school teachers have not the advantages of normal schools enjoyed in this part of the state.

## May Lower Duties on Corn.

Rome, Feb. 5.—The minister of finance, Signor Luzzatti, in the chamber of deputies, answering a question on the subject, said the government was willing to prolong the reduction of the duties on grain from 7 lire (50 cents) to 5 lire, from April 4 to May 31. The chamber, by a big majority, approved a temporary reduction of the corn duties.

## Warrants for a Mob.

Guthrie, O. T., Feb. 5.—Warrants have been issued for seventy-three members of the mob that burned the two Seminole Indians near Maud, and a large force of deputy United States marshals will be sent into the Pottawatomie County to make the arrests within the next forty-eight hours.

## To Test a New Law.

Springfield, Ill., Feb. 5.—Republicans want the democrats to make haste to test the constitutionality of the new gerrymander law. It is probable that they will co-operate with their political enemies in a test case. The law goes into effect July 1.

## Big Failure in Rhode Island.

Providence, R. I., Feb. 5.—The Rhode Island locomotive works filed its petition in insolvency Friday in the Appellate court. The schedule of assets shows estimated total value of \$518,376 and liabilities amounting to \$616,703.

## New Convict Law Attacked.

Indianapolis, Feb. 5.—The constitutionality of the indeterminate sentence law, which lies at the foundation of the new reformatory system, was argued before the full bench of the supreme court Friday.

## Sugar Meeting Declared Off.

Brussels, Feb. 5.—The sugar bounty conference, which was announced to begin on Feb. 15, is now indefinitely postponed, France having renewed her objections.

## Bad Fire at Wayne, W. Va.

Wayne, W. Va., Feb. 5.—Fire last night destroyed Walker's dry goods store, Dean's grocery house, Burgess' millinery store, Walker's hotel, Prichard's Inn, Smith's Hotel and several smaller buildings. Loss estimated at \$60,000, with but little insurance.

## THE HOTEL WOMAN.

**She Leads a Lonely, Aimless, Wretched Existence.**

A writer who knows more about the ways of women apparently than Balzac and de Maupassant combined has been giving them some advice on the subject of home life, says the New York Commercial Advertiser. He is nothing if not sympathetic, and grows quite pathetic over the misguided female who prefers to live in a hotel where "no duties call her" and where there is nothing "to exercise her ingenuity or develop her womanly talents," to keeping house in "some corner in this big world which they can call their own, their very own." This is heartrending, but nothing compared to the state of mind of the hotel wife when her husband leaves her in the morning. According to this same writer "she turns back into the room and wonders what she can do during the day, how she will employ herself, where she will go. There is nothing in her room to appeal to her to stay there. No home duties confront her. There is nothing in her life; two-thirds of herself lies dormant."

In fact, so desperate is her loneliness that she is actually "glad when the time comes for her husband to come home; glad to feel that she has some one to whom she can talk." What a remarkable young woman! But the young husband is as badly off almost as his wife. To him material considerations appeal. He grieves because "the furniture around them is not their own; nothing around him is his; everything is by lease, his for a time for so much money; and after he is through paying for it he leaves it behind"—which is at least comforting news for the hotel proprietor. When the writer speaks of "the germ of evolution which springs from the hearthstone" we take it as a direct aspersion upon the hotel radiator, but when he declares that "people who stop and stagnate are never happy," we would like to ask what about the persons who stagnate and go on. There are more epigrams, but the following should be framed and flaunted by flat owners and suburban cottage builders the world over:

"The humblest cottage is a million times better than the most luxurious hotel ever planned by the hands of man!" Think of that, little Mrs. Lonesomehurst, and never again envy your millionaire friend who lives at the Waldorf-Astoria.

"It is impossible to describe the feelings John and I had as we noticed our daughter slowly passing away from us. As a last resort I was induced to try Dr. Williams' Pink Pills for Pale People, made by the Dr. Williams Medicine Company, Schenectady, N. Y., which I understood contained in a condensed form all the elements necessary to give new life and richness to the blood and

restore shattered nerves. Before she had taken half a box, there was a decided change, and after three months' treatment you would not have recognized her, as her health was so greatly improved. She gained in flesh rapidly and soon was in perfect health. I have always kept the pills in the house since and have recommended them to every one I could. I have told many mothers about them and they have made some wonderful cures. One of the girls had a young lady friend that came to the house almost every day, and she was a sight. Honestly, she seemed almost transparent. I did not care to have my daughters associate with her, as I was afraid she would drop dead some day when they were out on the street. I recommended and begged her to take Dr. Williams' Pink Pills for Pale People, and told her of their sterling qualities and how the cure was slight, being only 50 cents a box or six boxes for \$2.50, at any druggist's. Finally I induced her to try them.

"They helped her wonderfully, and undoubtedly saved her life. She now recommends them to other young women. 'Every mother in this land should keep these pills in the house, as they are good for many other ailments. I don't believe in doctoring and never spent much money in medicines, but I can recommend Dr. Williams' Pink Pills to every mother that has a daughter just coming into womanhood.'

Costs about 1/4 as much as coffee. 15 and 25c.

## A Woman's Deed.

A BENEFACTRESS WHO IS DOING INCALCULABLE GOOD.

Devotes Much of Her Time to the Benefits of Children—How She Helps Them.

From the Evening News, Detroit, Mich.

Mrs. John Tansey, of 130 Baker Street, Detroit, Michigan, is one of those women who always know just what to do in all trouble and sickness. One that is a mother to those in distress. To a reporter she said:

"I am the mother of ten children and have raised eight of them. Several years ago we had a serious time with my daughter, which began when she was about sixteen years old. She did not have any serious illness but seemed to gradually waste away. Having never had any consumption in our families, as we come of good old Irish and Scotch descent, we did not think it was that disease. Neither did she have a hacking cough, yet she grew thinner and paler each day. Our doctor called the disease by an odd name which, as I afterward learned, meant lack of blood.

"It is impossible to describe the feelings John and I had as we noticed our daughter slowly passing away from us. As a last resort I was induced to try Dr. Williams' Pink Pills for Pale People, made by the Dr. Williams Medicine Company, Schenectady, N.
